## **DETAILED ACTION**

### ***Response to Amendment***

1. The reply filed on 5/10/04 consists of amendments to claims 2, 4, 6-9, 12-13, 15-18, addition of new claims 24-27 and remarks related to rejection of claims. The claims are not allowable as explained below.
2. Since Claim 5 is withdrawn, claim 27, which depends on Claim 5 is withdrawn.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 2, 4, 6-9, 12-13, 15, 17, 18 and 24-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Buckelew et al. (6498882).

Buckelew (Figures 1-8) shows an optical fiber tape having a fiber array 220, a fixation section 212 and a tape fiber 222 having a plurality of tape sections 206 fixed to the fiber array and a plurality of optical fibers separated between the fiber array and the fixation section into a number of groups, which is smaller than the plurality of optical fibers. Buckelew further discloses a protective tube in section 210 near the fixation section as well as in fixation section 212 and a rearrangement section near the fixation

section. The fibers can be arranged in a variety of ways. The pitch of the fibers in the fiber array is half of those of the separated fibers.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Buckelew et al. (6498882).

Buckelew shows all the features of this claim except the material of the protective tube and pitch of the . It would have been obvious to one having ordinary skill in the art at the time of the instant invention to make the tube of a flame-retardent material because it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

***Response to Arguments***

7. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2839

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
